BUILDING VALUE SINCE 1906

TB-88 Washroom Accessories LEED Information

Bobrick uses Type-304 stainless steel in the manufacture of its washroom accessories. The stainless steel material used contains a significant amount of post industrial recycled stainless steel content balanced with virgin iron and ferrous alloys.

The recycled stainless steel content varies because Bobrick sources stainless steel worldwide and Bobrick products are manufactured in different locations.

The following numerical list of Bobrick models indicates the percentage content of recycled stainless steel in each product.

Model No.	Recycled Stainless Steel Content	Model No.	Recycled Stainless Steel Content	Model No.	Recycled Stainless Steel Content
