

# 6000 *series*

Low Energy Operator

**Norton**<sup>®</sup>  
**ASSA ABLOY**

ASSA ABLOY, the global leader  
in door opening solutions

### 6000 SERIES LOW ENERGY OPERATOR

The 6000 Series low energy operator is a heavy-duty unit designed for rigorous, high-use applications. Built-in intelligence enables the operator to safeguard users while providing better door control. Simple installation and adjustment features combined with the unit's high level of versatility allows for seamless integration with a multitude of facilities and systems.

## Benefits

### Simple to Install & Maintain

- Modular construction for easy, one person installation
- LCD screen and joystick controller simplifies setup
- Wiring harness positioned for easy access with screwdriver

### Versatile Configuration & Integration

- Large onboard power supply for multiple system peripherals
- Configurable to meet virtually any site, activation or system integration requirements
- Interfaces with electric hardware and integrates with access control
- Complies with smoke evacuation "blow-open" requirements

### Robust Design Delivers Reliability

- Uses 7500 Series heavy duty, Grade 1 door closer
- Heavy duty chain and aluminum backplate withstand rigorous applications
- Heavy duty arms available for deep reveal applications

## Code Compliance

- ANSI/BHMA A156.19 certified
- ETL tested to UL / cUL standard for automatic doors on fire & smoke barrier doors
- UL10C listed for positive pressure fire test
- Complies with requirements for Americans with Disabilities Act (ADA)
- Verified by GreenCircle to offer 24% energy savings as compared to similar operators

## Features

- Push or pull side mounting
- Non-handed
- 1.3A onboard power supply
- Activated by push button, hands-free, and RF devices
- Infinite hold open
- Maximum door size 4'0" x 8'0", 250 lbs
- Push and Go
- Obstruction Detection
- Power Assist
- Operates as a mechanical surface closer when power is off
- 2 year limited warranty

## Applications

- Government Buildings
- Convention Centers
- Hospitals
  - Examination Rooms
  - Main Entrance Doors
- Colleges or Universities
  - Entrance Doors
  - Gymnasium Doors
  - Common Areas
  - Dormitory Entrances

An Environmental Product Declaration (EPD) documents the cradle-to-grave life cycle of a product and how it affects the environment. An important aspect of EPD® is to provide the basis of a fair comparison of products and services by its environmental performance. EPDs can reflect the continuous environmental improvement of products and services over time and are able to communicate and add up relevant environmental information along a product's supply chain.
