RICHELIEU INNOVATES AGAIN!

Antimicrobial cabinet hardware

An assortment of cabinet hardware with highly effective antimicrobial agent and recycled content for LEED certification.

KITCHENS & RESTAURANTS

OFFICES & MEDICAL CABINETS

The antimicrobial cabinet hardware helps you:

- Reduce exposure and costs associated with HAIs (Healthcare Associated Infections)
- Minimize risk of cross-contamination at home, in the workplace or in any traffic area
- Slow bacteria growth and proliferation

SILVER WINNER of 2011 IIDEX/NeoCon
Canada Innovation Awards

GREEN PRODUCT

LIGHTWEIGHT PANELS

MDF • PARTICLES • HDF • WOOD VENEER

Lightweight and innovative

Lightweight panels are made of honeycomb paper cell and recycled wood particles.

- Strong, rigid and stable
- Easy to cut and drill, perfect for curved and complex shapes
- Shipping and handling costs significantly lower compared to tradition panels
- Made from recycled and recyclable fibres
- Easy to handle

EDGEBOARDING

WOOD • EVOLUTION HD • ABS • PVC

Wood

Available in a wide array of wood species. All CEDAN edgeboardings are Greenguard™ certified and eligible to receive credits for the LEED programs.

Evolution HD

Evolution HD engineered wood edgeboardings are composite wood products made from glued fibre, lumber and /or veneer, giving the material a uniform, consistent appearance.

ABS and PVC

We stock more than 4,000 combinations matched to major board manufacturer products.

ELECTRONIC SOLUTIONS

Electronic locks and remote controls

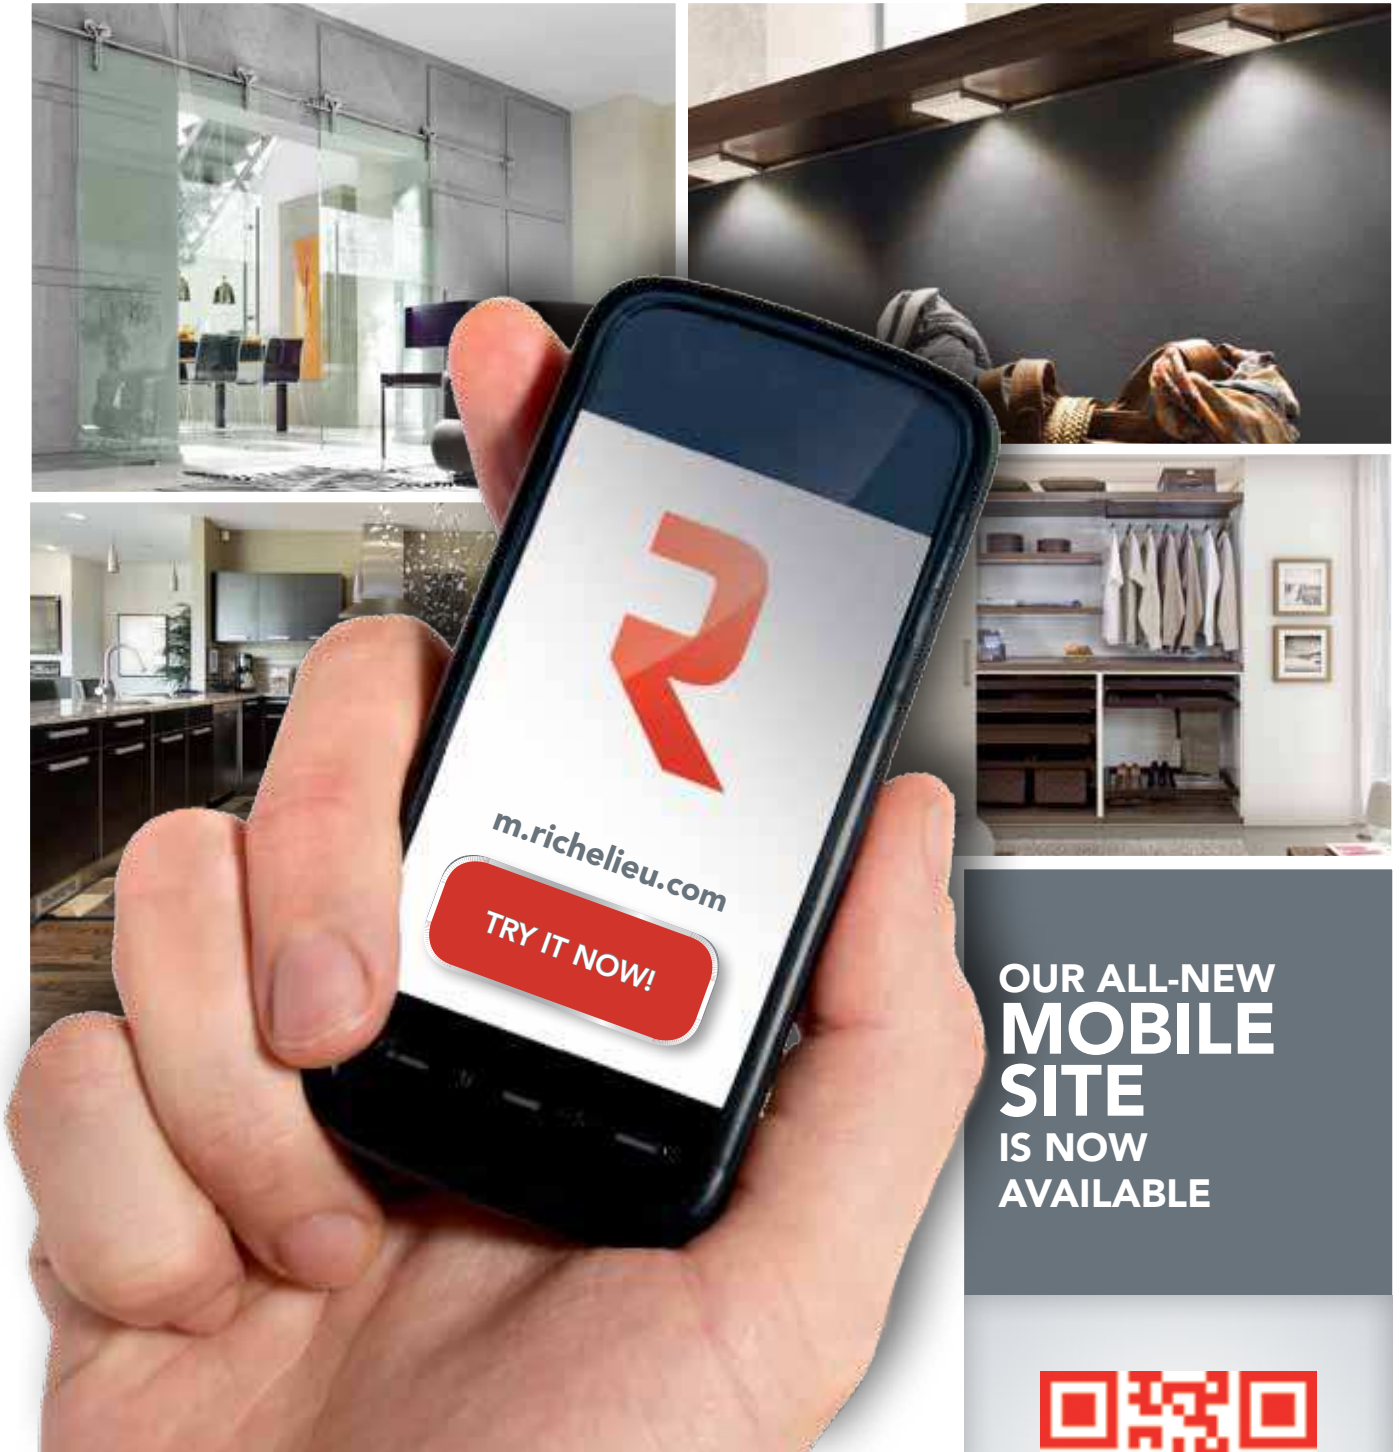

An electronic lock plus a remote control are the perfect solution for situations where both security and convenience are must-haves.

- LED transmission indicator
- 2.4GHz transmitter
- GFSK modulation
- Works with one 3V CR2032 battery (remote control) and 2 AA alkaline batteries (lock)
- Remote control can operate many locks simultaneously
