MAKING COMFORT EASY

SNOW MELTING

Applications in Asphalt, Concrete and in Mortar under Pavers

DRIVEWAYS

WALKWAYS

STAIRWAYS

Available in Snow Melting Mats and Cables

Ideal for snow melting in driveways, walkways and stairways. For installation in asphalt, concrete or in mortar under pavers. All WarmlyYours snow melting mats and cables are CSA Certified for use in Canadian and US markets and backed by a 10-year limited warranty.

Snow Melting Mats

Designed for quick and easy installation. Available in 2' (61cm) or 3' (91cm) widths, ranging from 5' (152cm) to 50' (1,524cm) in length. Each mat features a 1/4" (6mm) diameter twin-conductor series resistance constant wattage cable spaced 3" (8cm) apart. The cable spacing provides 50 watts per square foot (538 watts per square meter) on average for dependable and efficient snow melt performance, even in the harshest of northern climates. Equipped with 20' (6m) of cold lead for easy power hook-up.

Snow Melting Cables

Designed for maximum flexibility. Perfect for odd shaped areas and stairways. Available in lengths ranging from 43' (1,310cm) to 428' (13,454cm). Each cable features a 1/4" (6mm) twin-conductor series resistance cable for energy efficient operations. Generates 12 watts per lineal foot (39 watts per lineal meter) for dependable and efficient snow melt performance. Equipped with 20' (6m) of cold lead.

Snow Melting Controls

All WarmlyYours snow melt controls are either CSA Certified or UL Listed for use in Canadian and US markets and backed by a 2-year limited warranty. Offered in Premium-Aerial, Economy-Slab or Manual Timer Control options to meet your project needs.

Premium-Aerial Control: Offers the maximum flexibility of installation for use with asphalt, concrete or pavers. Includes SCP-120 premium control with high limit sensor probe, AIR-SS aerial sensor, RLY-series relay panel and SMP snow melt plaque. Optional RCO remote manual override sold separate.

Economy-Slab Control: Offers the fastest response time with the sensor in direct contact with the asphalt or concrete to be heated. Includes SCE-120 economy control, SLAB-SS slab sensor, RLY-series relay panel and SMP plaque.

Manual Timer Control: Offers manual control with the owner determining the hours of operation. Includes SCM-120 timer control, RLY-series relay panel and SMP snow melt plaque.

Limited Warranty

Snow Melting Mats and Cable are backed by WarmlyYours 10-year limited warranty. Snow Melting Controls are backed by WarmlyYours 2-year limited warranty. Each warranty covers defects in workmanship and materials. Contact your Account Manager for complete warranty information.
