

Environ™ Electric Floor Heating

Environ™ Radiant Heating

Environ™ is a non-adhesive foil electric floor heating system that is specifically designed for easy installation under carpet, laminate, and/or floating wood flooring. We offer two solutions, Cut & Fit Rolls and Easy Fit Mats.

The Cut & Fit is a flexible roll, that is cut and turned at 90° or 180° to cover the total area intended to be heated, allowing for larger, wall to wall coverage. The Easy Fit Mat is simply installed “as is” – no cutting required, allowing for more targeted coverage and comes in a variety of rectangular sizes.

At 12 watts per square foot, Environ™ floor heating systems allow for a gradual warming of soft carpet and floating wood floor coverings. During a full 10-hour “on” cycle, the system will heat a large size family room or bedroom for less than 60 cents a day, making the Environ™ more energy and cost efficient than traditional heating systems.

Environ™

- Innovative Ultra-Thin Foil Technology
- Energy Efficient (less than 60 cents-a-day to operate)
- 5-Year No Nonsense™ Warranty (covers ALL parts/labor)

The WarmlyYours Advantage

- Over 12 years in the radiant heating business
